

# Penetration Testing and Rezilion Platform

	Penetration Testing Without The Rezilion Platform	Penetration Testing With The Rezilion Platform
<b>Scope/Coverage</b>	<ul style="list-style-type: none"> <li>■ Pen testing is a specific point-in-time test performed to assess the security of a specific application.</li> <li>■ Pen testing does not identify and assess all present vulnerabilities in the right context.</li> </ul>	<ul style="list-style-type: none"> <li>✓ The Rezilion Platform assesses the entire software environment for vulnerabilities.</li> <li>✓ With Rezilion, pentesters can get a contextualized view of the vulnerabilities and prioritize remediation accordingly.</li> </ul>
<b>Deployment</b>	<ul style="list-style-type: none"> <li>■ Adhoc, point-in-time, manual based on a series of tests performed by a third party.</li> <li>■ Follows a playbook to identify and address vulnerabilities.</li> </ul>	<ul style="list-style-type: none"> <li>✓ With Rezilion, pen testers can prioritize vulnerabilities that are exploitable to focus on what matters most.</li> <li>✓ Continuous, automated, and integrated within the security workflow.</li> </ul>
<b>Software Bill of Materials (SBOM)</b>	<ul style="list-style-type: none"> <li>■ Pen testing does NOT generally produce any SBOM.</li> <li>■ When pentesters do produce SBOMs they are manual, static, inconsistent, and non-standard.</li> </ul>	<ul style="list-style-type: none"> <li>✓ Rezilion produces a dynamic SBOM of your entire environment including COTS, third party, and OSS components that is automated, continuous and in standard exportable format.</li> </ul>
<b>Effectiveness</b>	<ul style="list-style-type: none"> <li>■ Before the application goes into production</li> </ul>	<ul style="list-style-type: none"> <li>✓ With Rezilion, pen testers can cover a broader spectrum from development to production stages of the SDLC.</li> </ul>
<b>Scalability</b>	<ul style="list-style-type: none"> <li>■ Not scalable, one application at a time</li> </ul>	<ul style="list-style-type: none"> <li>✓ Scalable across entire product portfolio and business units</li> </ul>
<b>Time</b>	<ul style="list-style-type: none"> <li>■ Pen testing can take several days to complete</li> </ul>	<ul style="list-style-type: none"> <li>✓ With Rezilion, pen testers can set up and complete analysis within minutes</li> </ul>
<b>Price</b>	\$\$\$\$	\$

Penetration testing is better with **REZILION**. Get **30-day trial** of the Rezilion platform or schedule a demo to discover the value Rezilion brings to your own testing efforts. Learn more at [Rezilion.com](https://Rezilion.com).
